PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience building web applications, with hands-on experience across **React.js, Next.js, TypeScript, Node.js, Express.js, REST APIs** and data technologies. Built frontend architecture and a 30+ component design system for a multi-role B2B platform, and improved page-load time by approximately 30% through **code splitting, lazy loading and CDN caching**. Project experience includes AI-powered applications using **Python, Google ADK and LLM APIs**, alongside **API integration, authentication, automated testing** and CI/CD collaboration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Tailwind CSS, MUI

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Microservices, JWT/RBAC, JWT Authentication, RBAC

Database: MongoDB, Postgress, SQL

Cloud & DevOps: AWS, Azure, GCP, Terraform, Docker, CI/CD, GitHub Actions, Git

Testing & Performance: Jest, Core Web Vitals, Code Splitting, Lazy Loading, CDN Caching, WCAG, SEO, Playwright, Smoke Testing

AI & GenAI: RAG, MCP, LangChain, Google ADK, Ollama, LLM APIs

CERTIFICATIONS

AWS Certified AI Practitioner (AIF-C01)
Amazon Web Services · 09/2026

Terraform on Google Cloud (Skill Badge)
Google Cloud · 09/2026

Microsoft Azure Fundamentals
Microsoft · 07/2022

WORK EXPERIENCE

HUMBEE

Noida, India

Software Development Engineer

Aug 2024 – Present

- Led the frontend architecture redesign of a multi-role B2B platform serving distributors, dealers, retailers, and manufacturers through a shared React.js codebase.
- Designed and standardized a **design system of 30+ reusable components**, improving UI consistency, scalability, and maintainability across the platform.
- Improved application performance and reduced page-load time by approximately **30%** through lazy loading, code splitting, and AWS CloudFront caching, enhancing Core Web Vitals.
- Implemented JWT-based authentication and role-based access control (RBAC) across multiple user roles in collaboration with backend and DevOps teams.
- Collaborated with backend and DevOps teams on API integration, automated testing, and CI/CD release workflows to streamline deployments and improve release reliability.
- **Managed a team of 3 frontend developers**, overseeing task allocation, code reviews, technical guidance, and adherence to coding standards and architectural best practices.
- Owned sprint planning, effort estimation, and delivery timelines, proactively managing dependencies and risks to ensure timely delivery of features.
- Contributed to test automation and quality assurance using Jest and Playwright, supporting reliable releases and maintainable code.

Tech Stack: React.js, Next.js, TypeScript, Redux, Material UI (MUI), amCharts, Jest, Playwright, Code Architecture, API Integration, JWT, RBAC, AWS CodePipeline, AWS CloudFront, YAML Workflows, CI/CD, MCP Server.

BRICKWORK

Bengaluru, India

Senior Web Developer

Jan 2024 – Jul 2024

- Developed and customized Crownpeak CMS templates and web application features for US enterprise clients, translating client requirements into frontend functionality.
- Refactored and debugged application code, participated in code reviews, and collaborated with distributed teams to deliver features within Agile sprints.

Tech Stack : Crownpeak CMS, HTML5, CSS3, JavaScript, React.js, REST APIs, Git, Code Refactoring, Debugging, Code Reviews

US-BASED EVENT TECHNOLOGY Remote

Freelance May 2023 – March 2024

- Developed responsive, high-performance event websites and custom landing pages for large enterprise clients using **React.js and Next.js**.
- Built dynamic event pages for corporate conferences, product launches, webinars, and large-scale registration campaigns.
- Developed backend functionality and REST APIs using **Node.js and Express.js** to support event registration, attendee management, and dynamic content.
- Integrated databases and implemented authentication and role-based access control for secure user experiences.
- Optimized frontend performance, SEO, and responsiveness to ensure reliable experiences during high-traffic event registrations.
- Collaborated with design and backend teams to deliver scalable, customized event platforms aligned with enterprise requirements.

HACKEREARTH Bengaluru, India

Web UI Developer May 2022 – Jun 2023

- Migrated legacy WordPress applications to React.js using REST APIs, modernizing frontend implementation and improving maintainability.
- Improved accessibility, SEO and Core Web Vitals while developing reusable UI components and integrating HubSpot analytics.

Tech Stack : React.js, JavaScript, REST APIs, HTML5, CSS3, SEO, WCAG Accessibility, WordPress, Core Web Vitals, HubSpot Analytics.

OCEANIC STUDIO Delhi, India

Front-End Developer Nov 2020 – Apr 2022

- Developed responsive, cross-browser interfaces using JavaScript, React.js, HTML and CSS to support interactive web experiences.
- Built reusable React components, customized WordPress themes and integrated REST APIs to extend website functionality.

Tech Stack : HTML5, CSS3, JavaScript, WordPress, Bootstrap, SCSS, WordPress Theme Customization, React Js, REST APIs, Responsive Web Design, Cross-Browser Compatibility.

PROJECTS

TradeExpert - Multi-Agent Stock Analysis Assistant

- Built a multi-agent stock research assistant using Python and Google ADK for stock screening, company research and market trend analysis; integrated Gemini, Ollama and LM Studio.

Portfolio AI Recruiter Assistant

- Built an AI assistant using React, Cloudflare Workers and LLM APIs to answer recruiter questions about experience, skills and projects from structured data.

Homelab Infrastructure Setup

- Built and maintained a Proxmox-based homelab with Docker and Linux containers; deployed self-hosted apps and configured reverse proxy, SSL, DNS filtering, NAT, DHCP and LAN segmentation.

EDUCATION

IGNOU, Delhi, India Bachelor of Computer Applications (BCA)
