Professional Summary

Software Engineer with 5+ years of experience building applications with **React.js, Next.js, TypeScript and Node.js**. Led the frontend redesign of a multi-role B2B platform, built a **design system** and cut page-load time by **~30%**. Hands-on with cloud (AWS, Azure, GCP, Terraform) and GenAI (agentic AI, RAG, Google ADK, LLM APIs). **AWS Certified AI Practitioner**.

Technical Skills

Core Stack

React.js, Next.js, TypeScript, Node.js, Redux Toolkit, REST APIs, Design Systems

Backend & Databases

Express.js, GraphQL, Microservices, JWT/RBAC, MongoDB, SQL, Python

Testing & Practices

Jest, Core Web Vitals, Code Splitting, Lazy Loading, CDN Caching, WCAG, SEO, Git, Agile/Scrum

Frontend

JavaScript (ES6+), HTML5, CSS3/SCSS, Tailwind CSS, Material UI, Responsive Design

Cloud & DevOps

Azure, GCP, Terraform, Docker, CI/CD, GitHub Actions, AWS

AI & GenAI

Agentic AI, RAG, MCP, Google ADK, LLM APIs (OpenAI, Gemini, Claude), Ollama, ChromaDB

Certifications

AWS Certified AI Practitioner (AIF-C01)
Amazon Web Services · 09/2026

Terraform on Google Cloud (Skill Badge)
Google Cloud · 09/2026

Microsoft Azure Fundamentals
Microsoft · 07/2022

Work Experience

HUMBEE

Software Development Engineer (Frontend / Full Stack)

Noida, India
08/2024 - Present

- Led the **frontend architecture redesign** of a multi-role B2B platform serving **4 user roles** (distributors, dealers, retailers, manufacturers) on a shared **React.js** codebase.
- Built and standardized a **design system of 30+ reusable components**, improving UI consistency, maintainability and development velocity.
- Cut **page-load time by ~30%** with lazy loading, code splitting and CDN caching (**AWS CloudFront**), improving **Core Web Vitals**.
- Implemented **JWT authentication and RBAC** across user roles; managed **CI/CD** pipelines and releases with backend and DevOps teams.
- Raised code quality through **Jest unit testing** and **code reviews**; used **GenAI tools** to speed up delivery.

Brickwork

Senior Web Developer

Bengaluru, India
01/2024 - 07/2024

- Translated requirements from US enterprise clients into scalable **Crownpeak CMS** solutions. Improved performance and stability through refactoring, debugging and code reviews.

HackerEarth

Web UI Developer

Bengaluru, India
05/2022 - 06/2023

- Migrated legacy **WordPress applications to React.js** using REST APIs, improving maintainability and load performance. Improved **SEO, accessibility (WCAG) and Core Web Vitals**, built reusable UI components and integrated **HubSpot** analytics. Received the **Kudos Award** for outstanding performance.

Oceanic Studio

Front-End Developer

Delhi, India
11/2020 - 04/2022

- Built responsive, cross-browser UIs with **HTML, CSS and JavaScript**; customized WordPress themes and integrated backend APIs.

Projects

TradeExpert - Multi-Agent Stock Analysis Assistant

- Built a **multi-agent AI assistant** (Python, **Google ADK**) for stock screening, company research and trend analysis, supporting **Gemini, Ollama and LM Studio** models.

Portfolio AI Recruiter Assistant

- Built an AI assistant in my portfolio with **React, Cloudflare Workers and LLM APIs**; it answers questions about my experience, skills and projects from structured data.

AI-Text-Assistant - Privacy-First Local AI Assistant

- Built a local assistant with **React, Node.js and Ollama** for summarization, rewriting and grammar correction, running fully on-device with no external API calls.

Education

IGNOU, Delhi, India
Computer Science

Bachelor of Computer Applications (BCA)
06/2022
